I'm a Product Designer and an Engineer with a broad range of skills and expertise in all fields related to user experience design.

EMPLOYMENT

Product Designer · Sensogram Technologies, Inc. AUG'17 – PRESENT

Sensogram Technologies is a research and development company that designs, produces, and markets innovative easy-to-use wireless biosensors for mobile devices. Sensogram provides real-time, continuous, remote, mobile monitoring of vital signs such as blood pressure, heart rate, respiration rate, oxygen saturation, and others.

My responsibilities:

- Worked closely with product managers, developers, and CTO to enhance product features and meet business goals.
- Designed a web & mobile app for a new lineup of company products.
- Designed an in-app design system.

UX/UI Designer · Kultprosvet FEB'17 – AUG'17

Outsource web and mobile app development company.

My responsibilities:

- Partnered with Leading designer, Product Managers and developers to research, design, and prototype outsource products.
- Created UX flows, wireframes and interactive prototypes.

Front End Developer · Kultprosvet JUL'15 – JAN'17

Outsource web and mobile app development company.

- Developed beautiful interfaces with HTML / CSS / JavaScript.
